Caregivers and family

Questions for an individual conversation with your care team.

Keep the patient's wishes at the centre of conversations. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

Questions to take to my team

☐ Can someone help our family discuss disagreements while respecting the patient's choices?

☐ What should we do if caregiving no longer feels safe or manageable?

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
