

SCARSTORIES · A LITTLE COMPANY ON THE WAY

Frailty, memory and staying independent

Discuss daily function as well as the procedure.

Other heart conditions and life stages

Questions for an individual conversation with your care team.

Discuss daily function as well as the procedure. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

Questions to take to my team

☐ How could this treatment affect my independence and memory, and what support is available?

☐ Can we discuss my priorities, other options and what recovery may require at home?

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
