Access, communication and support

Questions for an individual conversation with your care team.

Decide what to share and who may speak with your team. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

Questions to take to my team

☐ How can I get copies of my reports and a clear medication list?

☐ How do I choose who can receive updates, and change that permission later?

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
