

Sleep apnoea and CPAP in hospital

Tell the admission team about breathing support used at home.

Preparing and waiting

Questions for an individual conversation with your care team.

Tell the admission team about breathing support used at home. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

Questions to take to my team

☐ Should I bring my CPAP machine, mask and settings?

☐ How will my sleep apnoea affect anaesthesia and monitoring?

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
